Dear Folks,-

Since writing I
have had letters from Mary
Annie and Kate. Kate said
I am enclosing you five dollars
but it wasn't there which
was a disappointment. Perhaps
that was it that you sent

I was at Spiering's all morning.
The concert is next Saturday.
It will be my first time

I was at Spiering's all morning. The concert is next Saturday. It will be my first time on a Berlin stage and I suppose the hall will look funny from that position. Was at Mr. Lesser's all afternoon and played a great deal for him. He is a great busy

body and loves to criticize.
So nothing would do him
but that I bring the Chopin
preludes and play them
for him. He sat over me
like a teacher and made
me repeat some of them
several times. Some of the
things he tells me are all
right so I enjoy playing for
him. This evening I stopped
in to see Mrs. Ganz and she
invited me to supper. I played
for her too and she found fault
with much. She was right
too. This trying to be a pianist
is terrible. My playing is
full of the worst faults that
should have been thrown
out long ago and the worst
of it is you never arrive
at a point where your play-

body and loves to criticize. So nothing would do him but that I bring the Chopin preludes and play them for him. He sat over me like a teacher and made me repeat some of them several times. My playing is full of the worst faults that should have been thrown out long ago and the worst of it is you never arrive at a point where your playing

is without faults. Sometimes I hear Busoni do the most childish things. D'Albert too last year played some pieces like a beginner. Here is a postal from Da Motta just for you to see his writing and funny English. Every once in a while he invites people to hear me play and at the last moment sends me word to prepare a certain thing. There are twenty five preludes of Chopin and I have been practicing them for three weeks so now I am going to have them 'to the perfection' is more than I know. And O! if you only knew what a delightful thing it is to play for your colleagues (?) They have of course studied the same things and if things become the least bit uninteresting or you do anything that is not very good they yawn and sigh and there is a general shifting of feet so that you feel like yelling out, "For heaven's sake I know it was a mistake without your all telling me!" But there is nothing to do but work and work. There are a thousand disappointments for one success. I'll bet you people haven't a cent and are head over heels in debt. Don't get any more improvements this year. Lovingly Ed.

Musical life of Berlin.

Last night I was at a party. It was at Dr Lesser's (a cousin of this one). There were about fifty, mostly young, people there. It was a fancy affair and there were some funny costumes. I wore my dress suit and had only a big blue bow. They danced but I couldn't as only Germans can waltz like they do. Of course there was music but it was funny. A chap with a big wig, supposed to be Sarasate played a piece like a mad man. There was singing and fancy dancing and a string quartette. The whole thing was humorous. The house was decorated like a 'Kneipe' or regular German beer restaurant and you could sit down and call

a waiter and order whatever you wanted. Got home at three A.M. which is terribly early for a German Saturday night party. Saturday is the favorite night as they sleep Sundays.

Was at Spiering's this morning. Mind you he is going to America next year and expects to have quite a tour. Sometimes I feel sorry for him for it is costing so much to play in Europe and the few pupils he has don't bring in much. Nicoline has eleven pupils and is making her living easily. But she is doing it at the expense of her own practice. Her technique is not near as good as it was in America.

Have had several letters this week. The coat of arms came. It is fine but it is probably too late for the lady to use it. She goes to America soon.

This has been a terrible day - cold and raining. But living in Berlin for almost two years makes one used to that kind of weather.

The account of Delia's shower was terribly exciting. How much have you saved this month?

For heaven's sake start now and let's begin over again. I have been busy playing with violinists but have been to only one concert this week - by Ysaye.

No news so one sheet is enough. Lovingly Ed.

Dear Folks,-

Am just in from
a concert by the Bohemian String
Quartette - a magnificent organi-
zation and easily the best quartette
today. This makes the fourth concert
for me this week. For the other
three I had free tickets which was
very agreeable. Mr. Lesser gave
me a ticket for a concert Tuesday
by Alfred Wittenberg, a violinist.
Wednesday heard Rumschisky
a Russian pianist and Thursday
a Russian orchestral concert given
by Kussewitzsky. I get a streak
of wanting to hear concerts and
go nearly every night. Then comes
a lull and I can't bear them.

I am practicing with Spiering nearly every day so my own practice is suffering. I am going to Holland with him the last of this month - just for one concert in a little town called Deventer. I have never heard of the place. We are probably going to stay a couple of days and take in Amsterdam which is in the neighborhood. You know S. is going to America next winter and wants to get in with the Mason and Hamlin Co. By the way - they have evidently forgotten that I exist - no money since new years. Luckily I have that money of Mr. Tewksbury's and am using it up. There is enough left for another month.

so I don't need to worry now. I wrote them but up until now no answer. I will tell Mr. Ganz to write them.

I seldom see Mrs. Ganz now. Used to accompany Mrs. Brooks at her lesson but it was impossible. I told Mrs. G. I had too much to do but the real reason ~~was~~ that I can't bear to be with either of them. They are brilliant society people and are beyond me.

Last Tuesday at my lesson played symphonies for four hands with Mr. Da Motta until 8:30 in the evening. He is an angel and I hope my money will come soon to be able to pay him some.

Mrs. Colline is probably wearing out shoes on the flags of north Hickory Street these days. I'm fasting from nothing in particular. Shrove Tuesday is a great day in Germany. There are carnivals, masquerade balls and all sorts of curious customs to usher in lent.

You remember my speaking of the Davidson family. Well the first week they arrived home one of the girls underwent an operation for appendicitis and the mother died. She was a great woman. The night we saw them off she was in fine spirits with the prospect of getting home for she hated Germany and just after coming into her grand home which Mr. Davidson had remodeled and prepared she died of kidney trouble.

The trip did it. You know
the pitching of an ocean liner
is hard enough on strong kidneys
and of course the life was just
shaken out of her.

It was a tremendous shock
to a great many people here
who knew her. She invited
me to visit them if I ever
played in the South.

It is getting late so I must
go to bed. Send me a Joliet paper
once in a while. The Chicago paper
takes too much time to read
but the other one would be fine
about once every two weeks.

a purp. I left at twelve on account of Spiering's concert the next night. This was quite a success. Spiering never played so well and I never accompanied better. There wasn't such a big crowd but there were many prominent musical people. Wednesday I was at Mr. Lesser's for supper and spent the evening. He often speaks of Léon Marx and the way he has treated him by not writing. Thursday Busoni played like a god. He opens new worlds to pianists and is certainly the greatest. Paderewski, for instance, is a child compared to him. His personality alone is tremendous. He plays again the 27th and of course I will be there.

After the concert I was talking to Mrs. Ganz. You remember what I wrote about accompanying Mrs. Brooks at her lesson. Well for Heaven's sake destroy that letter. To think of it makes me quake. Imagine my not having time for the Ganz's and running to Spierings every day. Well Mrs. Ganz told me that and was pretty angry. I certainly had remorse for the last couple of days and this morning went down to see her. So everything is beautiful again and I am glad. Friday I staid home all day and in the evening. Heaven's it was a relief.

Saturday rehearsed a quintette in the morning and went to Kelly's for supper. That is a awful place for pianists. Last night about a dozen played and it was hard to tell which was the best.

No news from the Cable Co. Nothing can be the matter for Mrs. Ganz told me Mr. saw them. Poor Mr. Ganz he is so enthusiastic about me. But you mustn't bank too much on what he says for really sometimes he reminds me of Kate. I have still enough money for a month so there is no worry or hurry. I wrote to Major Cleland and Mr. Ganz so they must wake up soon.

at a musicale soon and it will be fierce. But at the same musicale we are going to play another quintette for Clarinet, violin, viola cello and piano and it is fine because the worst one in the other quintette is out of it and his place is taken by the composer himself - a young fellow 23 years old and immensely gifted. It is nice to play a work with the composer.

Am rehearsing now with Herbert Dittler a young American chap who gives a concert Tuesday in Bechstein Hall. I will get only 20 marks for the accompaniment which is not considered nearly so bad as the same five dollars would be in America. My cheque came finally and for two months \$105. Mary's

came at the same time so I suddenly became rich. Her \$5 comes in handy as I am going to move and it will cost about that much for the transportation of the piano. The Kastners are going to live away out in a suburb and although they wanted me to come it is too far from everything so I went to my last year's landlady Fräulein Müller and luckily my old room was free. So address Culmbacher Strasse 14 bei Müller after this. I am glad as it is a fine room with a balcony and as long as there is no more heating need I will get along fine. You remember she was the one who wouldn't make the room warm. There were only a couple of critics at Spiering's concert - one spoke well of me and the other gave me a curry combing.

It was so late last night that I couldn't finish. Just came in from Mr. Lesser's. I tried to play some for him but it didn't go so instead he sang some songs. He has a peculiar voice but is a pretty good musician. Today was a glorious day. About eleven this morning Dittler yelled across the court for me to go walking. for me to play in Berlin. It is just this way. Supposing I paid \$200 for a concert and happened to play badly on that night. The critics would scold and the criticisms would be worthless. Then again if I got the chance to 'run over' to Berlin for a month any time during the next four or five years it would be just as well to play then. You can't count much on a Berlin concert. The only way to do is to struggle in some other country and play in Berlin once in awhile for fun. Of course I will be delighted to get the chance this year if the Cable Co. stand

the expenses as I think I would do well. Many students about my age have given concerts this season.

Don't think that was anything extraordinary that Ganz said about Spiering. They are enemies and talk about each other continually. Delia must be terribly proud with her \$11 a week. Heavens that Shepley's livery stable position was awful.

Lent must be terribly exciting. It is very quiet here and the music on Sunday is as bad as ever. So

I don't worry half as much as you think I do and I am having a much better time than any of you. Too bad you all can't hear these great concerts. Then as the wise one (alias Mrs. Collins) says as long as we have our health. The Germans all say the same thing. They say, "Die Hauptsache ist dass wir gesund bleiben".

My landlady has the same way reckoning time as Mrs. Collins. She has clever little ways of forgetting that her clock is fast and telling me it is past the time for practicing.

I look back upon it as an old man would think of something he had done when he was a boy.

Kate's cheque came. That is magnificent - 200 marks! - why I feel like a millionaire. It will fit fine in several places for instance, I must have a heavy overcoat for the sea trip and might as well buy

a good one. Then I have not paid ~~Jan~~ Jamieson all I owed him from last summer but can do it now. This has been a rather mild week except for the moving. The Kastners were very nice and packed for me which was fine as that same evening I played for Dittler and couldn't get myself out.

Thursday was the quintette evening. There were about forty guests there. I accompanied a violinist and a singer (both very bad) and with the two quintettes the whole evening was taken up. You know this Dr Lesser (at whose house I was) is a cousin of Martin (my friend). Friday evening I played trios and Saturday went to a string quartette concert with Mr. Lesser. summer day so I went walking this afternoon. Next Wednesday Gabrilowitsch gives a recital and I am going. It may be because I am writing with pencil, but I can't think of a thing to say. Sometimes it takes only a minute to write several pages and again I labor over it. It is getting harder for me to write because I am in a kind of routine now and am doing the same things all the time. Mr. Ganz is not coming until the first of June so I will have no lessons during May. (I think I told you Da Motta is leaving the last of this month). Find out and tell me what piano Mr. Ganz plays in May. His contracts with the Mason and Hamlin Co and Neumann are up and I guess Collins has him. I am trying to compose some more. It is hard and very doubtful - no driving it. It would be grand if I could compose something good. The songs from last summer are pretty childish which is natural enough for a first effort. That is the ridiculous part of it - as you grow everything you have written seems weak. Thank heaven here is the bottom. I made up my mind to reach it. Lovingly Ed. Calmbacher str 14

Dear Folks,-

I won't write many more times before going to London. Mrs Brooks is already there, Mrs Ganz and Miss Peterson are going the second of May and I am going the fifteenth. Mr Ganz telegraphed so things were changed quite suddenly. I will, of course, be glad to see England but Switzerland will have to get along without me this year. Mr Ganz arrives in London the twelfth. It is fine that I am going later than the rest for Mrs Ganz will have time to look around for rooms. Mrs Brooks sent me a card this week. She says

Easter Sunday was a cold rainy day and prevented the Germans from wearing their new hats.

I went to high mass. The choir sang a little Caecelian mass [without organ of course] in a very dinky manner.

In the afternoon Dittler and I went to Kirk Town's for tea and for supper I went to Mr. Lessers. The musical season is of course at an end. That reminds me - you know the season in London is in May and June so I will probably hear a few concerts. It must seem funny to go to a concert and not hear German on all sides.

With regard to my coming home, you know I have \$100 of Mr. Tewksbury's money and I better use that. He won't be home until about Christmas so there will be time to think about it after I come. Of course I will need some more but will wait and see what Mr. Ganz says. If the Cable Co. give me a cheque for August then I will have enough but I am afraid the year ends in July. I will feel like Weary Willie coming home without a cent but this is no place to make money. According to reports America is also pretty close fisted. The pianists (on the whole) had pretty rough sailing last season. I am wondering if I will play in Chicago next winter. A recital under Neumann would be the only thing worth while and he would probably be scared taking me. It is a great game this trying to be a public performer but in the meanwhile I will practice some more. Lovingly Ed.

This will be the second time this winter. I have been studying Tannhäuser lately which will make it doubly interesting. In two weeks begins

the great 'Wagner Fest'. It consists of ten Wagner performances magnificently given. I have sent in my name for a season ticket. The gallery seats cost \$5 which is scandalously cheap. Imagine 50c for a Wagner opera with a great cast and still greater orchestra and last but not best Richard Strauss conducting. Isn't it too bad that America can support only two operas. In Germany towns smaller than Joliet have opera the year round. It is in fact the only theatre in these places. One reason for this is that the Germans have no use for 'stars'. The Americans don't go to the opera - they go to hear Caruso and it doesn't make any difference what the rest are like just so a

star is in the cast. The Germans work for the ensemble and although the singers may not have sensational voices they know their business and get very little pay. To run an opera in a small town in Germany (orchestra included) doesn't cost more than a dinky stock company in America.

Mr Ganz leaves New York today. Did I tell you we may not go to London. Miss Palmer must have an operation for kidney trouble and Mrs Ganz is afraid to go. You know Miss Palmer is a singer and pupil of Mrs Ganz. So Mr Ganz will come direct to Bremen instead of getting out at Plymouth. I will be sorry if we don't see England but Berlin suits me any time. Mr Lesser would like to have me stay and I could often play at his house which is an opportunity that who knows when I will have again. I ~~had~~ visited him Sunday night and last night. His birthday is the 18 of May and of course there will be a musical. I am going to do the accompanying. He showed me a Sedalia Mo. (!!!!) paper the other day with Leon Marks picture in it. He laughed when I told him what kind of a town it is.

The Germans regard America

I have been watching Schumann Heink's tour and see that you have had a pretty strenuous time of it. There is a little

to be learned in the musical line isn't there? Of course this isn't your first tour but it is the biggest and I bet you learned more this year than any other ten together. have had tremendous experience in this land and can show me a few things. Why I can't play a Brahms trio or a César Franck Sonata although I played both (after a fashion) this week. The tremendous technique it takes to nothing. These young men sit down and read at sight like devils. On the whole I am not going to astonish the world right away like I was a few years ago. You can realize that. Nicht Wahr?

I was shocked to hear of Mr Hoffmann's death. Poor old fellow I thought I would get a chance to show off my German to him. Give my love to Frank and Francis and all the Hoffmanns - Gussie especially. Starting where I left off in my last - Tuesday I heard 'Tannhäuser.' Principal parts were taken by McLennan and Griswold, two Americans, who are among the standbys of the Berlin opera. I had the score which was the greatest fun. All the little liberties

taken by the singers and the many little mistakes made by the conductor were particularly interesting. The conductor was the poorest they have and accompanied pretty badly at times. But following the score one gets an idea of the great talent it takes to conduct an opera at all. The singers do just as they please and in the recitative, especially, the conductor is in a terrible position.

Saturday evening I went again to 'The Flying Dutchman' and through Kirk Towns had the score again. I got in just as the overture was commencing but before looking at the program knew that Blech was conducting from the vim and fire of the

of the first notes. Blech is great - quick as a flash and keeps the orchestra on the jump from start to finish. The conductor certainly makes or breaks the performance for the orchestra. They play every night, have rehearsal every morning and no one but an energetic personality can rouse them. I had ordered a season ticket for the Wagner Cycle but received word today that it is not to be had. I am almost sick over it. Dr. Muck who arrives in Berlin this week (from America) is going to conduct. Nothing like this ever happens in America so I will hear no more opera until coming to Europe again (!). Almost the whole week the piano has grinned at me but I didn't bother it much. I see more and more that to be a pianist I must be a musician. There is nothing that is particularly hard technically for me but there is much that is beyond me musically. The evenings at Mr. Lessers have showed me where I stand in that line. You have no idea of the cleverness of these young Germans. They read anything at sight and as if they had studied it for weeks. Last night I played in a piano trio and some others played two string quartettes.

I started harmony yesterday with Marquardt, whom Mr. Lesser recommended. He is fine. I started at the beginning although I already know quite a little having studied with Brune for about two years. I might as well get those uninteresting rules into my head now as any time and after the first couple of lessons will just fly along. If I could stay another year I could get into the master school through Mr. Lesser's influence and have free lessons in composition from Max Bruch, Humperdinck or Gernsheim. Sounds pretty fine eh? The principal thing now is that I start composing.

It is really the only way I can improve my piano playing and save myself from being a technical machine or a note factory as the Germans say.

I have not seen Mrs. Ganz for a long time although I called a couple of times. Miss Palmer is better - I saw her yesterday. She will be out of the hospital in fourteen days which will allow Mrs. Ganz to go to London next Friday. I have no idea when Mr. Ganz is coming to Berlin. I probably won't have any lessons at all this summer, as Mr. Ganz goes to visit his parents (in Zürich) in July and returns to Berlin only the 15 of Sept. By the way, have Dr. Moody influenced Mrs. Stalhle so that Marie will study in Berlin. She is gifted.

We are having glorious weather. It pours rain in the morning and the sun shines in the afternoon. I call that ideal. The grass is growing and the birds are screaming - but I must try and be a musician first and if there is any time left I can be a poet.

Once in a great while a letter from home sneaks in. Ann's was the last one but about the matter with Mary. Hasn't she recovered from the concert? The Tannhauser March must have been great and that's a famous aggregation that choir.

So I will probably go to Minneapolis. That is nice and then again it isn't. Chicago would be the best. If Minneapolis is assured ask Kate to try and get me an organ position in either Catholic or Protestant church. The principal thing is to get some money. I would enjoy ^{immensely} directing a choir and 'twould be great luck if a position as organist and director fell into my hands. I will soon be able to tell you exactly when I am coming. The cheque for May came yesterday so there is nothing to complain of.

Hope you are all well. Lovingly Ted.

If Minneapolis is assured ask Kate to try and get me an organ position in either Catholic or Protestant church. The principal thing is to get some money. I would enjoy immensely directing a choir and 'twould be great luck if a position as organist and director fell into my hands.

I will soon be able to tell you exactly when I am coming. the cheque for May came yesterday so there is nothing to complain of.

Hope you are all well. Lovingly Ted.

Dear Folks,-

One of the most disagreeable things about writing a letter to you is this eternal "Dear Folks" at the start. I have tried to think of another word but there is none and Mother, Mary, Annie, Celia is impossible. I have often wondered how other people start a letter which is intended for every one in the family.

Miss Peterson says she must write separate letters to her father, mother and sister and each one is insulted if she happens to do other wise. She writes society news to her sister, about her clothes to her mother and her financial affairs to her father.

are a number of rich men in Berlin who have set aside large sums to be given to music students. However there is this condition - that I must be a pupil of the Royal High school. Of course I told Mr. Lesser I wouldn't leave Ganz so I am to pose as a composer and not let them know [I] play piano. My patrons besides Mr Lesser are Levy and Mendelssohn (two wealthy Jews). The latter is either a nephew or second cousin of the composer. Mrs Ganz was delighted and thinks I will have a chance to play next year. She is in London now with Mr Ganz and both are coming to Berlin Sept 15. What do you think of the whole thing? The Minn. affair will not amount to much and anyway I would be away from home the whole time just the same as here. In the mean time I could probably find a position in Chicago.

The only uncertainty is my not being ready for the examination. The composition class is called the Master-Schule which means that the pupils must be masters to enter. Of course there is some red tape like at the Chicago Mus. College which will make things easier than they look. I am working hard on the harmony and will try and write something before the time comes. But if I fail I will pack up and take the ship. Why don't you tell me if Kate is coming to Europe? Sunday afternoon I was with Mr. Lesser also Monday morning when we went to the Hof-Schule to hear a sextett by a young chap whom I know quite well. Imagine the young fellows writing a sextett for string piano and wind instruments and having it played by some of the best musicians in Berlin!

I have received a letter from Mr. Ganz in which he tells me how delighted he is that I have the chance to stay. And you must realize the circumstances. Mr. Lesser is easily the most prominent figure in the musical life of Berlin and these other men are his backers. If I stay I am not going to go any place - I mean accept no invitations and am going to see what a winter will do. Mr. Ganz thinks I better stay the whole summer in Berlin. It is terribly hot here even now - and it will probably be melting in July and August. I am going to make a little trip this week from Saturday to the following Tuesday. Dear Folks,-

It is a pretty long time since I wrote a letter but if you count the post cards as one everything will be as usual. I arrived in Berlin (from Tangerhütte) last Tuesday evening and immediately started a letter. No use trying to write the details of my trip - that would fill books.

It was interesting and new.
It seems like a year since I
left Berlin that morning. I am
so green that every experience is
new so I am changing continually.
Young men of my age regard me
as a child and they are right.
They are these old but young in
years chaps who have roughed it
in most of the big cities of Europe
and the minute they look at me
they know that I am from a
small town and have a crowd
of sisters.
I intend writing a little about
my trip but don't know where to
begin. Perhaps I better describe
the place first. Tangerhütte is
a town of 5000 and Hauptmann
has his castle as dirty and
ugly as possible just like
all little German places.

the castle is a little outside of town so we had a ride behind a fast team of blacks and two coachmen whose livery bore a particular coat of arms. (By 'we' I mean Wiggers and I - he is the violinist who recommended me to these people)

Arriving, we met the family and guests who are all fine people. The owner Hauptmann von Arnum is not a count as I thought but a retired army officer and of very old nobility. The other members of the family are his wife and step son. I have never met three such fine people. They are all fine musicians especially the Hauptmann who in spite of the fact that he hasn't time to practice much, plays most of the violin literature and well. His time is taken up with superintending a ~~steel~~ mill with 1500 workmen. As there are no musicians of any account for miles around he has a chance to play only when he engages some one from Berlin or comes here himself. He enjoyed having me there for we played six hours a day and when I was going said "Oh it's past!" He has simply missed his vocation.

Rubinstein and many others all of whom she knew personally. Her son is an interesting young fellow - about 26 years old. He studied violin with Wiggers for about 12 years but didn't learn anything. He also sings but never practices. One of these fellows who do everything cleverly but nothing seriously. He also plays the pianola and between times that thing was roaring. in the castle and at Pentecost
and Easter it is generally
full. The grounds are beautiful
also the lake which is filled
with swans.

I mustn't begin to tell details
but cannot forget one old fellow
who was there - an old doctor
84 years old. He plays the
piano and of course must
exhibit his musical ability. So
one day he took off his coat
and came at me with a volume
of Haydn symphonies for four

I was, as usual, glad to be back in Berlin and at my regular work for I am never well any other time.

The Cable Co. cheque for June has arrived and with it a fine letter from Mr. Draper the sec. and treas. If I stay this winter in Berlin I will certainly be ready to play some for them in 1909. I must find a way to arrange my finances this fall. The last Cable cheque is for August and Mr. Lesser's stipend doesn't begin until October. For the rainy day I have already 100 Marks from Tangerhütte. The Hauptmann gave me twice as much as was agreed upon.

Have received two letters from Mary and one from Ann this week.

For the next couple of months I must pitch into my harmony and not read so many books. I took a new card in the library last week for a year and have been reading a book a day outside of my practice.

Hope Ann will have good luck in Elijah. Have an engagement in a few minutes so must cut this short. Is Mary glad school is out? With love Ted

Dear Folks,-

It seems an age since I wrote last. The fact is I haven't written one letter for over a week. Received two letters from Mary this week and one from Delia. Ann's success in 'Elijah' is fine news and of course Kate is a wonder. I have been unusually busy the past week studying harmony and playing at Mr Lesser's. Sunday was violin and piano sonata day and yesterday was taken up with trios. My chamber music playing has improved greatly in the last month and by the time I am ready to go home I will have played most of the sonatas, trios and quintettes. Now, before I forget it, fix up a fine letter for Mr Lesser. Tell

It seems an age since I wrote last. The fact is I haven't written one letter for over a week. Received two letters from Mary this week and one from Delia.

Ann's success in 'Elijah' is fine news and of course Kate is a wonder.

I have been unusually busy that past week studying harmony and playing at Mr. Lesser's. Sunday was violin and piano sonata day and yesterday was taken up with trios. My chamber music playing has improved greatly in the last month and by the time I am ready to go home I will have played most of the sonatas trios and quintettes.

Now, before I forget it, fix up a fine letter for Mr. Lesser. Tell

him 'how delighted you all are
because of his interest in me' etc.
Send him greetings (German custom)
from everyone especially from
Mrs Collins. By the way, Mrs.
Collins was toasted at a dinner
at Mr Lesser's Sunday. Of course
you would like to see this man
of whom I write so much. Well
I have some post cards of him
and me and you'll get one in the
near future. Don't make any
comments on his looks. He doesn't
pose as a dandy and what he
doesn't look he more than makes
up with his fine qualities.
It is fearfully hot and my room
is an oven. I intend moving the
first of July but haven't found a
place to suit. I want to live in

the same time in the country. That is not so easy to find as nearly everyone in Berlin wants to do the same thing. Was at a concert at the Hochschule Saturday Evening. It was great. A concert to the memory of Joachim. The orchestra played magnificently in spite of the fact that it consists entirely of pupils. The 'atmosphere' around the Hochschule thoroughly musical and it is especially interesting to me now being the scene of my next year's work. It is not only a musical atmosphere but a German musical which means much more. Although there are many Americans studying there there is never a word of English heard. I seldom speak English and must read an English book now and then to keep it up. It seems funny but I go down the street talking German to myself dream in German and could not get along in my harmony any other way. A year ago this time I was walking on the Rhine. That was a glorious trip spoiled in the beginning by the ugly news I got from Mr. Ganz about the Cable Co. Mr. Draper their secretary and treasurer wrote me a fine letter lately which I will answer immediately. They don't know as yet that I am going to stay. You must all take things easy this summer. Spare yourselves every trouble you can. It pays. Don't forget the letter to Mr. Martin Lesser, Genthiner Str. 37. Do it as soon as you can. He is expecting it.

Dear Folks,-

Again my good resolution to write twice a week is broken. I really enjoy writing and by writing details have easily enough news for a letter every three or four days. So I will 'turn over a new leaf' as 'Paw' used to say, and see if I can't keep you posted better on my doings here.

Of course you have Spears' card before this telling you of my meeting him. I was coming along ^{the street} and suddenly heard some one call me. I couldn't realize it that it was he. You mentioned his coming to Europe but as he didn't ask for my address I didn't suppose he intended coming to Berlin. I hadn't accidentally met him.

a reminder of home, hearing the names of Joliet musicians, Mrs. Martin, Mr. Galtcott, Miss Shepard et. al brought me down to earth with a crash. I have been kind of flying around in the clouds here with musicians who are that and being reminded of the above mentioned was a little too much. Thank Heaven! the Collins family is in another world. We have the real talent.

Last Thursday at the request of Mr. Lesser I played at an examination for organists at a Jewish Synagogue and was accepted. The position lasts only a week and for three or four services I will get the nice sum of \$20.

The Jews have several feasts the first week in September and (just like the Italians on Palm Sunday) as they all attend, the churches don't hold them. Extra services are in concert halls and that means extra organists. I play at the children services which means simply hymns and a few responses.

I am not going to move this month as I planned. It is not easy to find a suitable place in the neighborhood and I didn't have enough time to look around. However in August I think I will live in Zeldendorf a suburb about 20 minutes train distance. It is a beautiful place - quiet and cheap. If you remember Nicoline Zedeler was there two summers ago just after her operation. By the way, the Spiering's are

Dear Folks,-

After a good day's work I will finish up by writing. It was an unusually good day's work because it rained and prevented me from going out.

You seem a little worried about my finances. They were never in better condition. With \$100 still coming from the Cable Co. I have in all \$200, which will more than keep me until the first of October. The day the school opens Mr. Lesser will give me \$150 and the tuition for the first semester. Mary doesn't seem to understand the way things are arranged. The school doesn't pay anything.

The only connection between the school and the stipend is that to receive the stipend I must be a member of the school. 'Must' in this case means that I study at the most advantageous conservatory in the world. Not a disagreeable condition.

There is quite a difference between the Chicago M.C. and the Royal High School in Berlin. This being supported by the crown is out of the advertising and money making world and has the musical atmosphere only. having lessons nearly the whole time. I nearly spoiled the whole thing by refusing to study piano there. I told Mr. Lesser from the beginning that I wouldn't leave Ganz and at first he didn't see how it would be possible for me to escape the piano instruction at the school. Finally he did some scheming whereby I am entered as a pupil of a certain pianist to whom I will never go. The pianist has already agreed ~~with~~ to expect me. I probably told you that I shall study organ. It will be interesting to see what an organ lesson is like. I can't imagine what there is to be learned that one can't learn himself.

The musicale at Mr. Lesser's in honor of Prof. Gernsheim takes place Saturday. The program will be made up entirely of Gernsheim works. I am going to play in a trio and accompany a violinist and singer. Had a rehearsal with the singer this morning and transposed the songs at sight. It reminded me of the way Kate used to transpose and made me think it runs in the family. Received letters from Mary, Ann and Delia this week. The fourth was lately but I didn't know it until the next day. I have either outgrown fire crackers or lost my patriotism. With love Ted.

That is a little difficult but convenient. For instance last night: I was out until eleven and intended accompanying Mr. Lesser to the depot early this morning so I saved time and money by going there. As I have the house keys I can go there anytime. Then again I didn't have to move my books or music which is no small saving as both together must weigh a ton. force of habit has an influence on everyone. I knew she would go. It is fine to go away from home in August, it doesn't make any difference where, only to do something to enliven this lazy month. Everything stagnates and hours seem minutes. It is especially horrible in America on account of the heat. In Germany June is really the hottest month and by the 15 of August it is quite cool. The trees are already losing their leaves and for the last few days we have had October weather. The school vacation ends the 10th of August. I haven't had much chance to go walking but am looking forward to some fine strolls.

There is an immense woods not from the house and a beautiful lake is a 15 minutes walk.

However the harmony and soon the counterpoint come in for their share of time so I can't be idle. My piano is a miserable upright but is better than nothing. I enjoy practicing on it because it is so bad - a change from a grand. The Hochschule closed last year for two months. I am anxious to be there as the advantages are tremendous.

You better write to Culmbacher str after this and save me having everything sent from here. I will write often now as I will have more time.

It is fine to have rest and not be running around the town but I am afraid I would become drowsy after a while. I need

excitement to keep me awake and know that I am in competition with others. The usual walks in the woods took place - Thursday and Saturday with Marquardt. Wednesday and Friday with Wiggers. Then I went to the Theater in Berlin one evening. That is very quiet in comparison to my winter routine when I am rushing to rehearsals and being out nearly every night. Don't be frightened - that means out to a concert or at Mr. Lesser's. So you think I look thin in the picture. I certainly am not fatter as that is not my nature but it is not such a great calamity. I feel strong and have so little to carry. Tomorrow is my last day here. Tuesday morning bright and early.

Tomorrow is my last day here. Tuesday morning bright and early

I'll pack my satchel and in half an hour am settled for the winter. It was on the whole a fine month in Zehlendorf. Although I didn't get up very early and go walking, as I planned, nor accomplished as much as I intended, it was not lost time and I will enjoy the musical season more for not hearing any music the whole time.

Mr. Lesser is coming Thursday. I shall visit him then and he will tell me when we are to go to Schwerin. Mr. Ganz comes the 10th. I will not be here at that time but will see him about the 15th. I will feel nervous playing for him the first time. He hasn't heard me for a year and of course expects a great deal.

The theatres are all opened for the winter. I am going twice this week, Tuesday to Twelfth night and Wednesday with Wiggers, to D'Albert's 'Tiefland'. I may also go Saturday to Hamlet. The second rehearsal for the Jewish feasts took place this morning. The director is impossible. Tony is a wonder in comparison and the singers are off the key the whole time without the knowledge of the director. But it will soon be over and I will earn my little salary without injuring myself. It is rather sudden to close here but I will go to the mail box this minute and in the meantime think up something more interesting for next time. With love Ted

Dear Folks,-

Back in dear old Berlin and everything arranged for the winter. The only things to be arranged, however, was the renting of a piano which I did yesterday. On account of going to the Theatre Tuesday Evening I slept here that night and went to Zehlendorf next morning for my things. My room is just as I left it and every one seems to be exactly where he was last year. It seems funny but is true that it is much quieter here than in Zehlendorf. There the streets are paved with stones and when a wagon passes it sounds like a train. This room looks out on to the court

so I never hear a sound from the street. The people have their windows open and when a clock strikes it seems as loud as a church bell and a typewriter echoes across the court like the firing of a gun. The piano must sound pretty loud or would expect that I am not allowed to have the windows open.

I was with Mr. Marquardt yesterday afternoon until 5:30 and then went to meet Mr. Lesser at the depot. But as the result of an accident his train didn't arrive until 8:30. I ate supper with him and staid until quite late. He looks very well which is an exception as he generally comes home done up.

many engagements. A tour is doubtful even in America now. A few years ago things depended upon the way the artist was advertised but now the Americans are learning to judge for themselves. A good example of this is the decrease of Paderewski's success. He is no longer a sensation and has used up the last country where it is possible for him to do anything.

I am, thank Heaven! quite with harmony and am studying counterpoint. That is much more interesting. It is freer so I will improve more rapidly and I hope by next year to know as much about theory as I do about piano playing.

The college catalogue arrived and was interesting. The college has certainly degenerated - the faculty is laughable. Those young women teachers will always prevent the school from being taken seriously and the men are mediocre outside of Hermann and Consolo.

I ate dinner with Wiggers today and we made arrangements to play together next week. Then in three weeks the concerts begin and I will be up to my neck in music. This is going to be a great year for me. Received Mary's letter from the valley and Ann's and Cele's from home. You seem to be well so everything is all right. Try and go to some concerts in Chicago this winter. With love Ted.

Dear Folks,-

I am always at a loss as to how to begin a letter. As soon as the first sentence is written the letter is as good as finished. It is the same way with most people - a great many invariably begin by begging pardon for not having written sooner. My habit used to be telling what I was doing just before as 'just came in from my dinner' or 'my lesson'.

By the time I write next Kate will be here. The 'Blücher' is supposed to be in Hamburg the 20th but it is such a slow boat that a few days late will not be a surprise. 12 days from New York, in these modern times is a scandal.

It is the same way with most people - a great many invariably begin by begging pardon for not having written sooner. My habit used to be telling what I was doing just before as 'just came in from my dinner' or my lesson.

By the time I write next Kate will be here. The 'Blücher' is supposed to be in Hamburg the 20th but it is such a slow boat that a few days late will not be a surprise. 12 days from New York, in these modern times is a scandal.

Last Saturday I broke with Spiering - this time for good. He had been treating me like a servant lately telling ^{me} when I was to come for rehearsal and where I was to play for him etc without asking me if I would. If one incident is enough to show this, I was to go to München next Thursday morning and accompany him there the next evening. Between times the lesson schedule of the Hochschule appeared and both my lessons fell on Thursday afternoon. When I told Spiering this he was furious. Do you know why? Because traveling at night one generally takes a sleeper and to do that in Germany one must travel 2nd class. I calmed him by promising to travel 3rd class and sit up. I calmed him by promising to travel 3rd class and sit up. Of course he would take a sleeper. The direct cause

of the break was a concert in Leipsic. The pianist whom he had engaged became sick. Spiering was not bluffed - he printed new programs with my name on them and wrote me next day 'Come today at 5 - Spiering'. When I went he informed me I was to go to Leipsic. All would have been well but it happened that the night before Mr. Lesser gave me a raking for playing for Spiering at all for nothing and said if I didn't break with him and give all my attention to my own work he would let me go. So he did. So left him that night I promised to do it. So Mr. Spiering says 'you go to Leipsic', says I, 'I don't go to Leipsic'. He was stunned and of course furious at Mr. Lesser. He said I was a scoundrel etc. and would make it disagreeable for me my whole life. Also that I was doing him no favor to accompany him, he was doing me the favor in allowing me. To this I answered 'I couldn't see it that way'. He said 'Go to hell - get out'. So I jumped down the steps and came out onto the street feeling as if a big load had been lifted from me. That evening I was at Mr. Lesser's and when I told him he said 'congratulations' and ever since has been telling his friends that 'Collins is loose from Spiering'.

Of course Spiering flew to Ganz and made a rascal of me which he did about once a week. But Ganz is a wise man and gave me just as warm a welcome as ever at my lesson last Tuesday. He says he is glad for now Spiering will not be complaining to him any more.

This whole story sounds pretty violent but it had no effect on me. I knew it would come and it had to be sharp and quick. Mr. Lesser thinks it is the best thing ever happened to me. Had my organ and theory lesson this afternoon and enjoyed both immensely.

house needed shingles. I can't remember when it was last shingled. Mrs Collins has a feast of wood in the old ones. If I were home it would be my job to get them into the cellar. Where are you getting the money? I don't see how you can save any. Don't send me any whatever you do. Listen to this, - an old chap with 18 million thinks I am all right. His name is Martin Levy. I thought Kate would come yesterday and write half of this but she is not coming until tomorrow. Had a letter from her this morning. She seems delighted over the first concert which was Friday.

She hadn't changed a bit as regards letter writing. I asked her to write and let me know when she was coming but in spite of the fact that she was a whole week in that strange city with nothing to do but kill time. I heard nothing until this morning. She was supposed

to come yesterday and Mr. Lesser
intended having a splurge for
~~today~~ her but I couldn't tell him if
she would be here and was ashamed
to tell him she didn't write me.
But after the letter this morning
I am sure that she doesn't under-
stand these things and is inconsiderate
because she doesn't
know what it means.

Nothing worth mentioning
has happened this week. My
lessons with Mr. Ganz and at
the Hochschule were as inter-
esting as usual. I practice on
the organ five hours a week
which is almost enough and
not so much as to injure the
piano touch.

Mr. Ganz went to London

Mr. Ganz went to London

Thursday and will play two concerts there.

Left this to go to the Nikisch concert. Henri Marteau played pretty well but not in the least exciting. You know he is the director of the violin department at the Hochschule and therefore Joachim's successor.

It has been fearfully cold up until today and reminds me of getting a new over coat. I shall get it this week - perhaps tailor-made.

Was at van Rooy's concert with Mr. Lesser Wednesday evening. I was somewhat disappointed, perhaps because I expected him to be everything and that he isn't. When an opera singer suddenly starts to give song recitals he generally forgets the difference between an aria with orchestra and a song with piano. In the opera one can sing off the key a little but when van Rooy sang flat in a Brahms song it sounded like the devil. Mr. Ganz accompanied rather indifferently. I accompany a violinist next Tuesday. Shall send the program. I meet Kate tomorrow noon.
With love Ted.

Dear Folks,-

This will come as a surprise. I have made hundreds of promises to write twice a week but they have not lasted. This time though on account of Kate's coming there is some news.

Well she has been here three day and seems to be delighted with Berlin. The whole crowd arrived Monday afternoon. I met Kate and she came home with me while the rest went to hotels. 'The rest' are some friends of Schumann Heink. The latter appears to be very nice. She is certainly about the most magnificent looking woman I have ever seen. So many say she is homely but they are crazy - she is a perfect German type.

PENDING PROVISION OF JPGs

It was a little strenuous getting Kate's trunks into this little flat and of course the place is filled with her things. We have eaten our dinner here and suppers in a restaurant down town. Last night we sat a long time in a cafe and Kate told me a lot about home and then about me as a baby. This afternoon we went to see Mrs Ganz and Mr. Lesser. Mrs. G. was nice but of course very inquisitive about everything Schumann Heink does. We were at Mr. Lesser's about two hours - had coffee and music. Kate thinks I have improved a great deal in my playing and also that I am taller.

Schumann Heink went to Dresden yesterday but is in Berlin again to night. The next concert is Tuesday in Munich. It seems funny that on the same evening I accompany at a concert in Berlin.

PENDING PROVISION OF JPGs

Mr. Ganz played in London this week. Mrs. G. said the criticisms were good but that Mr. Ganz was sick when he played. I have a lesson Saturday so he will probably be back tomorrow.

Had a letter from Mary this morning and one from Delia day before yesterday. Kate is out this evening visiting a Mrs. McDaniels who came over on the Blucher. I must go and call for her so good bye for this time. Lovingly
Ed.

The steamer ticket is 90 or 100, tips on
the boat 15 to 20, railroad fare 50, cabs
and transfer of baggage etc.

I intend going home first class as
I am sick the whole time and the service
in second class is poor.

The snow is a foot deep an unheard
of thing for Berlin. I am sick of it and
shall certainly be glad to see the sun.
I was at a tea at Prof Gernsheim's Tuesday.
There were many noted people there among
them Sinding to whom I was talking.

Was at a concert with Mr Lesser and
a Goldberg family tonight. We went to
a restaurant after and wrote Ann
a card. You will probably get it with
this letter. Kate goes away tomorrow
for a couple of days. She is always glad
to have a concert as doing nothing is hard
one. Schumann-Heink cancels engage-

would go across the street. Have had a
couple of letters from Mary lately and one
from Annie. Am writing this very late - Kate
is already gone to bed. Lovingly

My other lessons are also taking up time as well as the chamber music evenings at Mr. Lesser's which go on as usual. I am going there this evening while Kate is going to a concert. She is playing while I am writing this. (Can't you hear her?) There remains nothing for me to tell you of except the weather. It is very cold and dry which is ideal. I take cold baths morning and generally a good walk. Thanks Heaven! that quartett is finished. The old chap gave me \$40 for the 26 hours which is a great deal in Germany. I was there for dinner and played it for him much to his satisfaction as there were only three notes wrong. Received Mary's letter with the program of her concert. I have a fine picture of the Hochschule which I shall send this week. You must have it framed. Kate sends her love. Lovingly Ed

Kate intends staying with me until the 19th and has been here about two weeks. We have a fine time together working like whiteheads and going out for our meals. Kate's work consists in writing Christmas

Cards of which she sent about forty today. She has certainly written more this week than during the rest of her life. Mrs Collins is most likely praying the whole time. Too bad I didn't say my Hail Mary's but I will be home next year and she can remind me of it. Monday A.M.

It became so late when I was writing this last night that I couldn't keep my eyes open any longer. Practiced an hour on the organ this morning and have just arrived home. Kate received a letter from Frank today and I received Mary's and Annie's. There appears to be a terrible lot doing in Joliet. These society affairs must keep the town in a state of excitement. I'm sorry Ann went to so much trouble over that little thing for Mr. Lesser. If it looks valuable Mr. Lesser will have to pay big duty on it. On first class matter there is an especially heavy duty. It will also be foolish to send anything to Kate or me. We don't need a thing and you can't afford it. Kate is playing so it is impossible for me to think of anything. Maybe next time I will be in a mood to write more interesting things. Merry Xmas and love from Ed and Kate.

Dear Folks-
Good news!
Yesterday Mr Ganz came
down with the telegram from
the Cable Co. It read 'Continue'
So I am not coming home
this winter. It is a great
relief to feel that things are
settled. It is a guarantee
of fifty dollars a month for
this year. They are pretty
generous. I don't think Mr
Tewksbury will take back
his cheque. Hope Mary has
turned from a socialist.

Mr Ganz leaves the seventh
of September to play a tour in
Switzerland. I am going to
stay until about the fifteenth.
Everything is fine. I am going
to make several mountain
tours this month with Mr
Ligrist (who owns this house).
The train is coming down
the hill now so I must
run out with this

Sunday A.M.

Dear Folks,

I have time to write before going to mass. The last is at 11:15. That seems pretty late but as dinner is at 2 there is plenty of time. This is a beautiful day. The sun is glorious and I must go walking all afternoon. These sunny days are a great temptation especially now when one is tired of winter. Sometimes the sun and piano fight as to which shall have me and the sun often wins. Berlin is really very small in area. Dear Folks,-

I have time to write before going to mass. The last is at 11:15. That seems pretty late but as dinner is at 2 there is plenty of time. This is a beautiful day. The sun is glorious and I must go walking all afternoon. These sunny days are a great temptation especially now when one is tired of winter. Sometimes the sun and piano fight as to which shall have me and the sun often wins. Berlin is really very small in area. The people all live in flats and so things are much more compact than in Chicago. So I am in

country with almost as little walking as from Joliet. Of course living in the West End is living on the edge of Berlin proper but then come the suburbs to go through before you are really on a country road.

I have been very busy this week and seem to have accomplished more than usual. Started the week by going Monday to a piano recital by Ignaz Friedmann. He plays much worse than he did last year and looks as though he had been bumming. Tuesday was my lesson. For a change I played rather decently. That same evening I played with a violinist at his home. Wednesday afternoon there was a musical at Spiering's.

The same evening I played with a violinist at his home. Wednesday afternoon there was a musical at Spiering's.

In the evening was at Mr. Lesser's - first to supper
and then played for him until about eleven.
Thursday afternoon I played piano in a quintette
at his house and in the evening played sonatas
with a violinist.
Friday I practiced all day but went out to
supper and staid until eleven. There was also
music there.
Yesterday morning I played with Spiering, frag.
in the afternoon and played trios with two chaps.
So you see the time was filled. It is through
playing these sonatas, trios and quintettes
that I feel that the time has not been lost.
These Germans are sharks for Chamber music
and it is fun to play with them.
Spiering's next concert is the 10th of March.
I evidently didn't impress the critics with the last
accompanying for only one mentioned me.
That was a bad week for me. It was one of those
times that come every couple of months and
am tired of music and lose interest in everything
for several days.
Busoni plays next week and the week after. His
concerts are very late this year. There are already
signs of the end of the season.
Will try to write more next time. Lovingly Ed.
